

Office of the
Chief Administrative Officer/PTS,
State Entry Road, New Delhi-110055

No: CAO/PTS/126/PHHT/Impl./2019

Dated: 11.08.2022

General Manager/PRS,
Centre for Railway Information Systems,
Chankyapuri, New Delhi.

General Manager/PMS,
Centre for Railway Information Systems,
Chankyapuri, New Delhi.

Sub: Default/Auto flagging of trains in PRS and HHT applications.

Since 10550 HHTs have already been distributed over Indian Railways and procurement of additional 18240 HHTs has also been initiated by CRIS under the work of "Pan India Rollout of Hand Held Terminals (HHTs) for TTEs" and will be delivered to Zonal Railways after finalization of tender.

Approximately manning of 2000 trains has already been started over Indian Railways and rest of the trains will also be started slowly, as per feasibility and availability of HHTs.

Presently, flagging of the trains in PRS is being done manually by the officials of PRS Datacenters for which Zonal Railways have to approach to concerned PRS Datacenters and after flagging of trains in PRS, the trains get ready for working through HHT.

Now, as the HHTs have to be introduced in all the trains and therefore, to avoid manual intervention, CRIS is requested to make following provisions:

- a. Default flagging in PRS application of all the existing trains as well as new trains to be introduced in future.
- b. Similarly, in HHT application also train should be auto flagged as and when introduced in PRS.

(Sudhīr Kumar Tyagi)
Chief Administrative Officer/PTS
