Sub:- Cervical Cancer Screening Camp at RH/BZA - reg.

Incidence of cancer is quite common in Indian women (104 cases per 1lakh population). Cervical cancer is second most common cancer after breast cancer in Indian women.

CMS/BZA is organizing a Cervical Cancer Screening Camp on 26.08.2022 at 08.30AM in RH/BZA in association with VOGS (Vijayawada Obstetrics and Gynecological Society). PAP smear collection will be done by latest LBC (Liquid Based Cytology) technique.

You are advised to make use of this golden opportunity by giving wide propaganda about the date of Cancer Screening Camp in RH/BZA.

Please send a list of all eligible women employees / dependants who are married and between the age of 30yrs – 65yrs in your department to make necessary arrangements for sample collection. The list should reach PS(Gaz) to CMS/BZA by 24.08.2022.
