Sub. **Submission of compliance on AGM's Inspection Notes.**

<<<>>>

The undersigned has conducted a series of inspections since May 2023 and issued as many as 17 inspection notes so far. During these inspections the officers concerned including ADRMs from the divisions concerned were present. On receipt of the inspection notes issued, the divisions are expected to submit their compliance within reasonable time. It was, however, noted that the **submission of compliance by the divisions is quite poor**. The details are enclosed.

As you will appreciate **any inspection serves its meaningful purpose only when the inspection notes are complied with by the divisions concerned within a reasonable time of around 15 days**. If any particular item needs longer time to comply with at least an interim reply can be given bringing out the time frame for final compliance. In case a particular item cannot be complied with for genuine limitations the same can also be brought in.

You are, therefore, **requested to get the consolidated compliance submitted for each of the inspection notes pertaining to your division, duly signed by one of the ADRMs, at the earliest**.
