Sub: -Continuation of Experimental stoppages over South Central Railway - reg.

Over this Railway, experimental stoppages have been provided to various trains at various stations. It is observed that divisions are sending proposals for continuation of experimental stoppages at very short notice or after expiry of the period for which experimental stoppage was provided. On some occasions, when experimental stoppage at a particular station is discontinued due to last minute/delayed communication by divisions, it is leading to representations from various quarters.

In this regard, divisions are requested to furnish details of stations along with train numbers for which experimental stoppages have been provided. Further, if divisions recommend for continuation of experimental stoppages, the proposal may be sent with commercial justification & remarks duly obtaining DRM's approval well in advance i.e at least 20 days so as to obtain necessary approvals.

Matter may be treated as most important.
