Enhancements and Bug fixes in HHT App Version 2.8.0

New Features/Enhancement:

- | | |
|----|---|
| 1. | EFTs can be prepared out of the sequence for Squad TTEs. Also few common fields will be carrying values from the last EFT fed. These changes are incorporated to make the EFT preparing process faster and suitable for taking UPI payment. |
| 2. | List of passengers who have filed Ticket Deposit Receipts (TDRs) can be found in the Report section of the app. |
| 3. | UTS fare enquiry has been added in Utility menu to enable enquiring II class fare on any route. |
| 4. | The Coach Deficiency report now provides detailed subtypes of damage, including Mechanical, Electrical, and Other Damages. Additionally, it now offers an option for specifying Lower class in case lower class coach has been attached. |
| 5. | The coach consist now stores data received from ICMS, allowing it to be accessed later without an internet connection. |

Bug Fixes:

- | | |
|----|---|
| 1. | Storing attendance marking time and TTE name user for newly added (WT/Pass booking) passengers. |
