टेलीफोन/TELEPHONE : 24104525, 24106717 फैक्स/FAX : 91-11-26877893

New Features & Enhancements and bugs fixes are as below:

New Features & Enhancements :	
1.	Vacant Berth Merging(If a berth is vacant from A to B and B to C, they will b automatically merged to create vacant berth from A to C)
2.	Coach composition has been provided in HHT App as being provided in manual charts.
3.	Provision to see vacant berths/seat for a specific pair of stations has been provided in vacant berth option.
4.	ISL Data loading of sub urban trains (for Free Duty/ Station Duty staff).
5.	PNR Search of already held ticket holders in EFT module.
6.	Inversion of control of berths(Previously vacant berths of all coaches could be allotted to the RAC/WL passengers of assigned coaches, Now vacant berths of assigned coaches can be allotted to the RAC/WL passengers of all coaches)
7.	Proper Information of the loading of Charts provided for Virtual Remotes.
8.	Provision of Train Schedule in Report Section.
9.	Showing Waitlist No in RAC Allocation page.
10.	Remarks and info option for all passenger on long press (Previously it was allowed for TU Passengers only).
11.	Running total in the footer of EFT MIS.
12.	NOSB (No Seat Berth) Berth Type has been introduced for child passenger in case of collection of half fare and berth/seat is not to be allotted.
13.	Optimization of EFT module by collecting additional fields in client for seamless and faster synchronization of EFTs with TTE Lobby
14.	Tea/Coffee food option added
Bug Fixes:	
1.	Vacant berths can be allotted to RAC passengers on the same berth with different boarding points without checking them.
2.	Pass booking bug fix (User was not able to allot Pass holders as standing passenger).
3.	In case of Multi class coaches, allotment of berths could be done in upper class only.
4.	Filters (ALL, NT, TU, CURR passengers etc) were not effective for the passengers of unassigned coaches.
5.	In case of part allotment, information of previous berth disappeared (if passenger is travelling from A-D and berth is available from B-D, information should be available from A-B in old berth and B-D in new berth)
