S. No	Agenda	Action by
1.0	CCM/PS reviewed Ticket Checking activity of each division and advised the following immediate action to the divisions to enhance the Ticket Checking earnings and also eradicate menace of Ticket-less traveling.	
1.1	A division wise list of trains with day journeys/intercity and trains having more number of stoppages have been identified to conduct surprise checks (As enclosed). In addition to that Sr.DCMs to identify any other trains which come under these categories and conduct surprise checks in the next 14 days.	All Sr.DCMs
1.2	Vulnerable sections and trains are to be identified apart from the above,intense ticket checking drives are to be conducted. It is felt that at the wayside stations where stoppages are there, the squads may concentrate for surprise checks and prevent scope for ticket less travel. Additional manning of trains wherever required due to expected crowding can be planned too.	All Sr.DCMs
1.3	A strategy has to be devised and drives have to be started with immediate effect. ACMs / DCMs need to take active part in these drives. All these drives to be extensively advertised in the local media to create awareness in the Rail users that only reserved passengers are been allowed to travel.	All Sr.DCMs
1.4	Ticket checking staff needs to be juggled by including Station staff and spare amenity staff to make these drives effective.	All Sr.DCMs
1.5	A format has already been circulated to submit the details of checks conducted and earnings by divisions and same needs to be communicated to Headquarters commercial control as per the format on daily basis.	All Sr.DCMs SCM/Resvn.
2.0	Dy.CCM/IT has brought out the following points which needs immediate attention of Sr.DCMs.	
2.1	POS machines are underutilised and also noticed that some of the TTEs are not carrying these POS machines while on duty which have been allocated to them. Divisional officers to sensitize and encourage the staff to use POS machines. The position to be monitored on regular basis.	All Sr.DCMs
2.2	Most of the TTE lobbies are computerised, it is noticed that physical registers are also being maintained to sign on/off. This practice should be curtailed with immediate effect. TTEs invariably to sign on/off in lobby application wherever computerised lobbies are available.	All Sr.DCMs
