Ref: GM/PMS/CRIS letter no: 2022/CRIS/NDLS-HQ/PMS/IMPLEMENT/PHHT/HHT Client/0318 dated 02/11/2022.

In reference to above, it is to inform that CRIS has developed a new version (2.7.2) in HHT application. Before enabling in online server, on board testing is required. The details of the modifications are as under:

SN	New Functionality
1	Facility to restrict TTE to enable him to check the passengers of his/her beat only.
2	Facility to prepare EFT of the passenger having UTS ticket to the reserved class.
3	Facility to prepare EFT in un-reserved coaches.
4	Showing Device ID and UUID on home page without login for betterment in device management.
5	Facility of showing RAC passengers in chart view page with RAC filter.
6	De-boarding of passenger filter added in chart page.

SN	Bug Fixes
1	Sometimes vacant berths against Not turn up passenger are not available for RAC allotment to passenger on real time.
2	Visibility issue in EFT form input: sometimes input value is not visible in EFT module.
3	App hangs at splash screen.
4	Limits the timeout of all transaction of synchronization to ignore unlimited waiting of TTEs.
5	Showing double entry on allotment if passengers reallocate the berth on intermediate station.
6	Disabling the shifting of RAC, WL and NOSB passengers.

The new version (2.7.2) for on board testing can be downloaded from any of the links i.e.
