विषय/Sub: Referral cases to the Private Empanelled hospitals - reg.

* * *

It is observed that referral should be done to empanelled hospitals on emergency basis but the cases are being referred even if the case is not in emergency and these cases may be treated at our level. During the last month (i.e., August 2022) referrals to empanelled hospitals are 2255 in comparison to 2065 last year (i.e., August 2021). This shows increasing trend of our referrals.

Railway Board is repeatedly pressurizing to reduce the expenditure as we are paying nearly Rs.120 crores yearly to empanelled hospitals. It is the time to curtail the expenditure. To save the revenue loss all doctors in your jurisdiction should be advised to utilize our manpower and infrastructure at our level. This will save Railway revenue and brings down the expenditure.

This should be followed strictly.
