- |.]| Daily 6 diverted loads (mostly BOXN loads) are being taken over at DVD to be handed over at BPQ. During the entire duration of the pre NI and NI, Board is requested to exempt SCRly from these diverted loads. Similarly, exemption is requested for diverted loads being accepted at BPQ and to be handed over at BZA.

Speed restrictions may be advised locally during block period.

- 1. Division to ensure site preparedness and adequate resources in terms of materials & manpower so that there is no bursting of block and timeline.**
- 2. As per Board's instructions availability of officers at the site may be ensured.**
- 3. Division should take all necessary steps & precautions to ensure safe running of trains during execution of the work with minimum detention to trains.**
- 4. Division should also ensure that adjacent divisions are informed well in advance to ensure the effective utilisation of shadow block for maintenance works.**
- 5. Shadow blocks for track works like TRR, TTRR, Duomatic/Unimat tamping and other department (OHE and S&T) works will be utilised on either side of stations.**
